

# AIRIA

## Sophisticated fragrances. Smart delivery.

AIRIA delivers a personalized scent experience throughout your home – created and changed with just a few clicks.

### Breakthrough Fragrance Technology

## Luxurious fragrance in every room of your home.

AIRIA is not just another diffuser. Our proprietary technology enables our luxury fragrances to travel throughout your home – up to 2000 square feet.

\*2000 square feet claim refers to single floor layouts

"Lighter Than Air"  
Micro-Droplets

High Quality  
Fragrance Oils

Precisely Controlled  
Consistently Delivered

## Fragrance that travels.

AIRIA's micro-droplets are 20 microns in size allowing them to travel from room to room by floating along your home's natural air flow. The tiny droplets quickly evaporate filling your home with enjoyable fragrance.

## Where art meets science.

With over 25 years of industry experience, our in-house Fragrance Designer works with master perfumers to carefully craft AIRIA's exquisite fragrances specifically for our proprietary technology. Following trends in food, beauty, and fashion and inspired by nature's finest aromas, our scents are unlike anything available at major retailers.

## Perfectly consistent.

From the time you insert your cartridge until the day it runs dry, you can expect a consistent, high-quality fragrance. The AIRIA device only heats our oils at the moment they are dispensed and our cartridges keep the ingredients fresh for up to two years.

## A wide variety of fragrances to suit your style.

Because of our unique design and formulation process, we have access to the finest ingredients around the world. Using the best available raw materials results in elevated fragrance characters that traditional plugs, candles, and waxes simply cannot deliver.

## A Truly Personalized Experience

# Create the perfect ambience for your home.

**Scent Intensity** – from a “barely there” hint to a bold fragrance statement

**Light Color and Intensity** – set the mood for a romantic dinner or a lively party

**Schedules** – create schedules that fit your lifestyle with the flexibility to meet your changing needs

## Simple, Intuitive Functionality

# “Alexa, set AIRIA’s scent intensity to 7.”

AIRIA works right out of the box with simple, integrated buttons, but with our iOS or Android app, you can unlock even more powerful features. And because AIRIA is built with ease in mind, you can change settings with Alexa voice control.
